

# Only One Commandment

Iron Mask

In this world of madness  
Where sharks and predators rule  
We have to be united  
We'll never kneel to anyone

Only one commandment  
Burning every book of rules  
Listen to your heart and soul  
Only one commandment  
Go against the crowd of fools  
Listen to your heart and soul

Raise your fist, we stand strong  
Every nations, hear this wild call  
Don't give in, claim your ground  
We all carry the rebel flag

Only one commandment  
Burning every book of rules  
Listen to your heart and soul  
Only one commandment  
Go against the crowd of fools  
Listen to your heart and soul
