

## Coming Home

Iron Savior

Lost in the dark milleniums ago  
Where is the place where's the place called home

On fire they rode to flee from the fall  
Their future was doomed they've foreseen it all

Mythical world of the ancient empire  
secret and hidden but some day we shall return

Ancient calls from anywhere in time  
we have to follow the sign  
Distant voices - sources unknown  
Where to they lead us  
Where will we go  
On the scent for the lost Coming home

Chasing a shadow in stardust and haze  
Where will we find traces of our race

The engines are roaring we're leaving ground once more  
is it for real - will we fail like so often before

Ancient calls from somewhere in time  
we have to follow the sign  
Distant voices - sources unknown  
Where to they lead us  
Where will we go  
On the scent for the lost  
Coming home

Mythical world of the ancient empire  
is it for real - will we fail like so often before

Ancient calls from somewhere

Star of the old guide us - give us hope  
Star...
