

Pull My Finger

Iron Weasel

Like an angel in the fire
Like a devil in the rain
You make my face go crazy
Like a baby on a plane

Love is flowing through me
A volcano gonna blow
Evacuate the village
Look out now, here we go

Pull my finger
It's a real stinker
Pull my finger
Just don't break my heart
Smell it linger
It's a massive stinker
Smell it linger
Just don't smell my heart

Twenty snakes around me
Seven tigers run
You're my mother nature
And I'm my mother's son

My love's a soaring falcon
Sending love-drops from the sky
Before the first one hits you
You'll hear the falcon cry

Pull my finger
It's a real stinker
Pull my finger
Just don't break my heart
Smell it linger
It's a massive stinker
Smell it linger
Just don't smell my heart

Pull my finger
It's a real stinker
Pull my finger
Just don't break my heart
Smell it linger
It's a massive stinker
Smell it linger
Just don't smell my heart
