

Smells like fun

Iron Weasel

1,2,1, 2, 3

Cross your party and rocked til dawn
Woke up on your car in your parents lawn
Soakin wet with the sprinklers on
Don't know where your friends have gone
So much fun every day and night
That's how we fill up an appetite
What may seem crazy to you
Are just the things we like to do!
Life's a game we live to play
That's out motto everyday
Yeah!

It smells like fun
And everyday we're getting punked
We're genius at being dumb
It smells like fun
Taking any dare cause we're the ones
To only do what can't be done
And it's only just begun to smell like
Yeah, it smells like fun
Roll your wheels back in the garage
Cause last night was just a mirage
Lost your keys no problem at all
Just come right through the window
Life is just a game to us
And our behavior is contagious
Yeah!

It smells like fun
And everyday we're getting punked
We're genius at being dumb
It smells like fun
Taking any dare cause we're the ones
To only do what can't be done
And it's only just begun to smell like
Yeah, it smells like fun
It's totally normal for us
To be like this just naturally outrageous
And what you see is what you get
Is what we all agree don't take life to seriously
Life's a game we live to play
That's out motto everyday
Yeah!

It smells like fun
And everyday we're getting punked
We're genius at being dumb
It smells like fun
Taking any dare cause we're the ones
To only do what can't be done
And it's only just begun to smell like fun
And everyday we're getting punked
We're genius at being dumb
It smells like fun
And if we lose we're still the one
Cause we're having so much fun
And it's only just begun to smell like
Yeah!
