

Come Live With Me

Isaac Hayes

Of all the things I want in the world
Is to have you to come live with me
And be my girl
You see, I've done a lot of playing around
Big cities and some smaller towns
A lot of girls, they knew my name
And were fascinated by my game
But finally there comes a time
When one leaves his past behind
Because he meets a girl like you
The likes of which he never knew
Love is here
And I know it's here to stay
So please, my dear, believe me when I say
Just as long as fire is hot
Girl, you have all the love I've got
Come live with me, girl
I've never been in love at all
Never thought I'd ever fall
But you touched my heart and soul
And you took complete control
Everyday you're on my mind
I think about you all the time
Just how beautiful it would be
If you were constantly with me
Making love with you
Is a joy I've never known
I know you feel it too
So let me take you home
'Cause just as long as fire is hot
Girl you have all the love I've got
Come live with me
And just as long as the world is round
I swear, I'll never let you down
Please live with me, girl
I'll try very hard to be
The man that you want me to be
I'll do anything to satisfy
I don't want to make you cry
True love and security
Are two things a women needs
And these things I promise to give
Just as long as I shall live
Love is here
And I know it's here to stay
So please, my dear, believe me when I say
Just as long as fire is hot
Girl you have all the love I've got
Come live with me, girl
And just as long as the world is round
I swear, I'll never let you down
Please live with me, girl
Just as long as fire is hot
Girl you have all the love I've got
Come live with me, girl
And just as long as the world is round
I swear, I'll never let you down

Come live with me, yeah, yeah
And just as long as fire is hot
You know, you've have all the love I've got
Come live with me, girl
And just as long as the world is round
I swear, I'll never let you down
Please live with me
And just as long as fire is hot
Girl, you have all the love I've got
Come live with me, yeah
And just as long as the world is round
I swear, I'll never let you down
You got to promise me that you'll
Come live with me
And just as long as fire is hot
You know that you have all the love I've got
Come live with me
