

# Come Live With Me

Isaac Hayes

Of all the things I want in the world  
Is to have you to come live with me  
And be my girl  
You see, I've done a lot of playing around  
Big cities and some smaller towns  
A lot of girls, they knew my name  
And were fascinated by my game  
But finally there comes a time  
When one leaves his past behind  
Because he meets a girl like you  
The likes of which he never knew  
Love is here  
And I know it's here to stay  
So please, my dear, believe me when I say  
Just as long as fire is hot  
Girl, you have all the love I've got  
Come live with me, girl  
I've never been in love at all  
Never thought I'd ever fall  
But you touched my heart and soul  
And you took complete control  
Everyday you're on my mind  
I think about you all the time  
Just how beautiful it would be  
If you were constantly with me  
Making love with you  
Is a joy I've never known  
I know you feel it too  
So let me take you home  
'Cause just as long as fire is hot  
Girl you have all the love I've got  
Come live with me  
And just as long as the world is round  
I swear, I'll never let you down  
Please live with me, girl  
I'll try very hard to be  
The man that you want me to be  
I'll do anything to satisfy  
I don't want to make you cry  
True love and security  
Are two things a women needs  
And these things I promise to give  
Just as long as I shall live  
Love is here  
And I know it's here to stay  
So please, my dear, believe me when I say  
Just as long as fire is hot  
Girl you have all the love I've got  
Come live with me, girl  
And just as long as the world is round  
I swear, I'll never let you down  
Please live with me, girl  
Just as long as fire is hot  
Girl you have all the love I've got  
Come live with me, girl  
And just as long as the world is round  
I swear, I'll never let you down

Come live with me, yeah, yeah  
And just as long as fire is hot  
You know, you've have all the love I've got  
Come live with me, girl  
And just as long as the world is round  
I swear, I'll never let you down  
Please live with me  
And just as long as fire is hot  
Girl, you have all the love I've got  
Come live with me, yeah  
And just as long as the world is round  
I swear, I'll never let you down  
You got to promise me that you'll  
Come live with me  
And just as long as fire is hot  
You know that you have all the love I've got  
Come live with me
