

# If You Want My Lovin', Do Me Right

Isaac Hayes

it's been so long time from the past  
what love is all about  
you called me up one night  
and asked if I could take you for a ride  
over the telephone  
my silence returned your rhyme  
what a surprise  
to give from spending  
with you in mind  
and never ever ever did you wrong  
No I never, huh I never sent you wrong  
and if you wanna, wanna be my lover  
you gotta show me how much you care  
If You (if want my loving my kissing and hugging)  
gotta treat me right  
if you (if want my loving my kissing and hugging)  
do me right, do me right,  
it's been so long, 't's been so long  
Now I been all alone  
since you picked up and you walked out  
and girl since you been gone  
I found out what love's all about  
Look in my eyes (look in my eyes)  
and tell me  
just what's on your mind  
if I give in  
is there one more surprise  
another lover  
you said you never, never, never  
if you wanna be my lover  
you gotta show me just how much you care  
You (if you wanna be my lover)  
if want my loving my kissing and hugging)  
do me right, do me right,  
do me right, do me right  
if want my loving my kissing and hugging)  
do me right, do me right,  
do me right, do me right  
you called me up and said  
you're sorry  
you walked out on me  
I've divided to take you back  
since you would lose your love to me  
I'd hesitate  
I've heard these lies  
so many times before  
if you want me back  
just let me know  
why you walked out that door  
you  
want my loving my kissing and hugging)  
do me right, do me right,  
do me right, do me right.
