

# Baby I

Isac Elliot

Baby I  
Woah woah-oh  
Baby I  
Woah woah-oh-oh

I can't help  
Losing faith  
When you say  
That you love  
Me so much  
As a friend

You don't know  
How it hurts  
To pretend  
When I see you make  
The same mistakes  
All over again

Baby I, I, I, I, I  
I would lie-ie-ie-ie-ie  
If I told you you'd be better off with someone else  
Baby I, I, I, I, I  
I would lie-ie-ie-ie-ie  
If I said I never miss you when I'm by myself  
So tonight, I will try  
I will open up your eyes  
Cause I know that you'd be better off with me instead

Friday night  
Dressing up  
To go out  
You turn around  
Asking me if  
You look alright

What can I say  
You blow me away  
I wish you were mine  
Maybe you  
Already found  
Your Mr. Right

Oh, baby I, I, I, I, I  
I would lie-ie-ie-ie-ie  
If I said I never miss you when I'm by myself  
So tonight, I will try  
I will open up your eyes  
Cause I know that you'd be better off with me instead

So here I am without my armor  
You can stab me if you want to  
But I won't hold it back no more  
No no, no no

The truth is that I have always loved you  
I'd be a liar if I didn't tell you, woah

Baby I, I, I, I, I  
I would lie-ie-ie-ie-ie

Baby I...  
I would lie...  
If I said I never miss you when I'm by myself  
So tonight, I will try  
I will open up your eyes  
Cause I know that you'd be better off with me instead

Ooh, baby I...  
I would lie...  
Yeah I know that you'd be better off with me instead

Baby I  
Woah woah-oh
