

Engine

Isac Elliot

Oh, my, god
You've got your head in the clouds, never come down, I love that you'
re a
Cra-zy ride
The way you let down your hair, like you don't care, you rock the stea
dy world
Don't mind when I'm the kind
I guess that I for six day of tracked, my Jordan's take a run
For miles to see you smile
And girl you've got me going so fast

'Cause ohhhh oh my god
Girl I love this crazy life, and it's youuu yeah it's you
You keep my engine running
And ohhhh all those nights
You and me what a crazy ride, and it's youuu yeah it's you
You keep my engine running
You keep my engine running

Oh, my, god
This girl is all that I see, now listen to me, oh yeah you got it
That's, so, heart
The way you dance on the street, you take the lead, you rock the stea
dy world
Don't mind when I'm the kind
I guess that I for six day of tracked, my Jordan's take a run
For miles to see you smile
And girl you've got me going so fast

'Cause ohhhh oh my god
Girl I love this crazy life, and it's youuu yeah it's you
You keep my engine running
And ohhhh all those nights
You and me what a crazy ride, and it's youuu yeah it's you
You keep my engine running
You keep my engine running

You know with you I don't, I don't mean no one else
It's incredible, unstoppable
And you know me like I know, I know myself
It's magical don't you know that
I will do do do do anything, we can love love love like we've never b
een hurt, like we've never loved before

Yeah
You keep my engine running
You keep my engine running
You keep my engine running
I know you've got it, I know you've got it, yeah
You've got me going so fast
You keep my engine running
