

So Did We

Isis

Our skin worn thin
Our bones exposed
Life reduced to ticks

From forest caves and azure skies
We crashed upon this earth
The years they passed and so did we
But, resistance would be brought

2. Backlit

Always object
Never subject

Can you see us? Are we there?
Are we there...
Can you see me? We are watching
We are watching...
You are fading...
In the daylight... Fading...

Always upon you, light never ceases
Lost from yourself, light never ceases
Thousands of eyes, gaze never ceases
Light is upon you, life in you ceases
