```
I miss my wife
I miss my best friend
Every night
I miss my home
I miss my own bed
And my old life
Oh, oh, oh, oh
I lost my love
It brought me so low
As described above
I lose desire
Into my mood swings
Into the fire
Oh, oh, oh, oh
I can feel my face
I can feel my face
I don't want to know where the feeling goes to some better plac
I can feel my face
I can feel my face
I don't want to know where the feeling goes to some better plac
I don't want to know where the feeling goes to some better plac
Oh, oh, oh, oh
I miss my wife
I miss my best friend
Every night
I miss my home
I miss my own bed
```

And my old life
