

Don't I Love You

Islands

Don't I love you?
Isn't the sky gray?
Isn't the moon blue?
La dah dah dah

And don't I love you?
Until one hundred
Mmm, go unfed
Don't I love you

And when I turned around

You had gone underground
And when I tried to coax you out
You didn't make a sound

Don't I love you?
Isn't the sky gray?
Isn't the moon blue?

Don't I love you
While my arms surround you
Like lovers' do
