

Everybody needs lovin' sometimes  
Physical emotion, alright babe  
To see your face light up  
Would give me nothing but bliss  
And when I start showing off  
I never know how to quit

Say something I'm not giving up on you  
I'll stay as long as I need to

I wanna be all you think about  
Anything and everything you dream about  
As if I had it all figured out  
I wanna be the one you can't breathe without

It might be hard to play it cool  
Cause I know that's not what gentlemen do, yeah yeah  
When I'm hurting just to know you're fighting  
Listen to me reminiscing and let love guide you

Say something I've got a lot to lose  
Odds say that you're not gonna pull through

I wanna be all you think about  
Anything and everything you dream about  
As if I had it all figured out  
I wanna be the one you can't breathe without  
If you could open your eyes

I don't know where you are  
In your mind but listen to your soul  
Trying to find its way back to your heart  
From the car to the ER  
Just think of me and pull yourself back to creation

I wanna be all you think about  
Anything and everything you dream about  
As if I had it all figured out  
I wanna be the one you can't breathe without  
If you could open your eyes
