

Kiss Like Judas

It Bites

So glad you could make it
Bring the slaughter to the lamb
I may look like some animal
But I am who I am , a man and I love you
And I'm hoping you feel as I do
I cover my face in terrible shame
And Open my heart up to you

Look at my friends they're always laughing
Think they're doing alright
Maybe it's me they think they're fooling
It's a general insight
Who knows what you see
Maybe it's Lies, All lies

She gave me a kiss like judas
Crowning the clown on his merry-go-round
She gave me a kiss like Judas
Who wears the crown when your heads on the ground

So glad you could make it
Beast and Beauty way up high
Cold Pains of Sanctuary
It helps to make up my disguise
But water, She gave me water, so I gave her the use of my life
Is it the chip on my shoulder
Or the hunch on my back that's as sharp as a knife?
Look at my friends they're always laughing
Think they're doing alright
Maybe it's me they think they're fooling
It's a general insight
Who knows what you see
Maybe it's Lies, All lies

Water, Get it when you 're feeling low
Who told you that she gave me another
Water, Who told you that she gave me another
She gave me a kiss like judas
Crowning the clown on his merry-go-round
She gave me a kiss like Judas
Who wears the crown when your heads on the ground
