

I heard a message on the radio  
And then the news came over  
It said the lady's gonna make a show  
And then her mind took over

Moving in circles of glasses and changes  
Facing the problems in all of the ranges  
We fall to our death with a mixture of races

And then the walls come tumbling down  
And everybody's getting higher and higher  
And then the moonlight hits the town  
To make me  
Positively Animal  
Positively Animal  
Positively Animal  
Positively Animal

I heard a rumour on the radio  
And then the news came over  
It said the lady couldn't make the show  
And then the show took over

Moving in circles of glasses and changes  
Facing the problems in all of the ranges  
We fight to the death with a mixture of races

And then the walls come tumbling down  
And everybody's getting higher and higher  
And then the moonlight hits the town  
To make me  
Positively Animal  
Positively Animal  
Positively Animal

I'm talking I'm talking to you  
You make me feel so candy  
I'm trying to get through  
You make me  
Positively Animal

Moving in circles of glasses and changes

Positively Animal  
Positively Animal  
Positively Animal  
Positively Animal  
Positively Animal  
Positively Animal  
Positively Animal  
Positively Animal  
Positively Animal
