

# Yellow Christian

It Bites

Bright light it's a magical night  
A ghostly presence in the midnight air  
Way over yonder there's a glow in the sky  
So I sit back and I stare

It passes overhead and all I can see  
A silhouette up a nearby tree  
Am I the only one throughout the land  
Witnessing something so grand

Make believe  
All I can see  
Fantasy  
A dream come true  
Behold I say to you

Hang on  
Yellow Christian  
Take the time to notice me  
You're always in my heart I've..  
...Made it plain to see

A nearing light transposes the sky  
God's own garden  
People sheltered in their homes and houses  
Thieves and fools and long traveled soldiers

A candid light approaches the homes  
Human falter  
People bellowed from their homes and houses  
Thieves and fools and long reigning pharaohs

Now I've seen all the glittering light  
A peaceful warm December night  
And I can say to my fellow men  
Sure they will reappear once again

Make believe  
All I can see  
Fantasy  
A dream come true  
Behold I say to you

Hang on  
Yellow Christian  
Take the time to notice me  
You're always in my heart I've..  
...Made it plain to see
