

# Refuge From The Wreckage

It's Alive

I won't ask you to run  
For sound, and safety  
The last thing I want's  
For you to leave  
It's not your cross to bear  
Don't try and save me  
The victim of crime  
Should be set free

(Should be set free)

If you take my hand and follow  
To a place that we don't know  
We'll take refuge from the wreckage  
We'll find a place that  
A place that we call home

Don't give up on the hope  
Of feeling weightless  
It's the only other way  
For us to breathe  
I'm afraid we're barely human on the outside  
Calloused, we can't feel until we're free

(Until we're free)

If you take my hand and follow  
To a place that we don't know  
We'll take refuge from the wreckage  
We'll find a place that  
A place that we call home

I'm sinking but I've come to  
Lift the pain above you  
Cross out what you've been through  
And we can run away  
And if the darkness won't fade  
I'll come up with a new shade  
Scared but it's a new day  
And we can run away...  
We can run away..  
We can run away..  
Just believe in me

If you take my hand and follow  
To a place that we don't know  
We'll take refuge from the wreckage  
We'll find a place that  
A place that we call home

Take my hand and follow  
To a place that we don't know  
We'll take refuge from the wreckage  
We'll find a place that  
A place that we call home
