

## And I'll Walk Away

Itchy Poopzkid

i feel so extraordinarily right  
my mind was black but now it turns to light

hey hey hey  
come on baby, better listen up  
say say say  
say what you want, but i don't need give a fuck  
hey hey hey  
i'll shut shut shut you up and i'll walk away...up and away

i made it unquestionably clear  
no more late night i have to fear  
my time is done i walk away  
my time is done i rum  
coz i am better off without you - i will walk away  
because i am better off without you, so much better off...
