

And I'll Walk Away

Itchy Poopzkid

i feel so extraordinarily right
my mind was black but now it turns to light

hey hey hey
come on baby, better listen up
say say say
say what you want, but i don't need give a fuck
hey hey hey
i'll shut shut shut you up and i'll walk away...up and away

i made it unquestionably clear
no more late night i have to fear
my time is done i walk away
my time is done i rum
coz i am better off without you - i will walk away
because i am better off without you, so much better off...
