And I'll Walk Away

Itchy Poopzkid

i feel so extraordinarily right
my mind was black but now it turns to light
hey hey
come on baby, better listen up
say say say
say what you want, but i don't need give a fuck
hey hey
i'll shut shut you up and i'll walk away...up and away

i made it unquestionably clear no more late night i have to fear my time is done i walk away my time is done i rum coz i am better off without you - i will walk away because i am better off without you, so much better off...
