

Drop The Bomb

Itchy Poopzkid

Saw an add on the TV screen advertising this institution
It sounded good for me to fight for peace and to finally make ends meet
Paid vacation with the gun in hand on land, in the air, on the water
Exploring nature on foreign sand

Where we will march and fight and kill 2, 3, 4

We wanna know where are we supposed to go
Drop the bomb, drop the bomb and we'll fight our way through
The We wanna know where are we supposed to go
Drop the bomb, drop the bomb and we'll kill ourselves for you

I signed up and I made some friends willing to take the chance of a lifetime
Coz staying home is not how it ends for me, for me, for me
We go their way and without a doubt there'll be parades held in our honor
My mum is scared but my daddy's proud

And now we march and fight and kill 2, 3, 4

[Chorus]
