

Out There

Itchy Poopzkid

I got this project im working on, it's the shit
It's kinda secret but coming, just wait a bit
I swear you've never seen anything quite like it
You want it bad but you just don't know it yet
I got some contacts that help me and you do not
It is a friend of a friend of a friend I' got
You think I'm making this up, oh boy I do not
No one understands all the skills I've got.

If you'll excuse me there's somewhere I have to be
Where the whole fucking city can see me
Yeah, yeah, yeah
It's friday night and I'm everywhere
and pretty soon they will stop and stare
when I am out there.
Yeah, yeah, yeah
It's sunday night I'm still everywhere
I think they already stop and stare
But I'm so out there.

There is this party where I will be raising hell
And did I tell you who's gonna be there as well?
They think I'm awesome at least I think I can tell
From all the stuff I heared, it'll be an easy sell
If you have got some requests you will be just fine
Me and my partners break records and dollar-signs
Our international office will save you time
Oh yeah but it's the same postal adress as mine.

If you'll excuse me there's somewhere I have to be
Where the whole fucking planet can see me
Yeah, yeah, yeah
It's friday night and I'm everywhere
and pretty soon they will stop and stare
when I am out there
Yeah, yeah, yeah
It's sunday night I'm still everywhere
I think they already stop and stare
But I'm so out there.

Yeah, yeah, yeah
Yeah, yeah, yeah
Im so out there
Yeah, yeah, yeah
Yeah, yeah, yeah
Yeah, yeah, yeah

If you'll excuse me there's somewhere I have to be
Where the whole fucking city can see me
Yeah, yeah, yeah
It's friday night and I'm everywhere
and pretty soon they will stop and stare
when I am out there
Yeah, yeah, yeah
It's sunday night I'm still everywhere
I think they already stop and stare
But I'm so out there.
