

# The Living

Itchy Poopzkid

Ohh!

A headache minus pills  
And a torture of skin  
I'm wearing suede wait, rain!  
Would you please let me in?  
She figured me out  
But she figured me wrong  
Now my lady-friend is gone  
A tickle - a tackle  
A punch in the head  
I had to get, get away  
But my tires were flat  
The next morning  
I had just one thing to do  
But the alarm clock broke in two

To be honest I'm amazed  
Obstacles along the way  
Biting tongues and fingernails

Situations have been here forever  
Realizing this now more than ever  
I'm taking more than I'm giving  
This is living, living, living  
Situations have been here forever  
Realizing this now more than ever  
I'm taking more than I'm giving  
This is living, living, living

(living, living, living)  
(living, living, living)  
(living, living, living)

A message - a beep  
I wonder what's going on  
But when I tried to push play  
The delete-button won  
I see people laughing only to find out  
That it's me they laugh about  
A question - a prize  
Lots of money in sight  
The answer was left  
And now guess who said right  
Imagine the worst of the worst of the worst  
Of the losers I go first

First I'm blinded then I'm amazed  
Obstacles along my way  
Biting tongues and fingernails

Situations have been here forever  
Realizing this now more than ever  
I am taking more than I am giving  
This is living, living, living  
Situations have been here forever  
Realizing this now more than ever

I am taking more than I am giving  
This is living, living, living  
Situations have been here forever (living, living, living)  
Realizing this now more than ever (living, living, living)  
I am taking more than I am giving (living, living, living)  
This is living, living, living  
Situations have been here forever (living, living, living)  
Realizing this now more than ever (living, living, living)  
I am taking more than I am giving (living, living, living)
