

## Symbols of Time

Ivanhoe

God is in the 4th dimension  
God is in the place of Love  
Forgotten things remembered  
turn around - come above

When you've heard about me  
When you've felt the breeze  
when you feel  
the cold wind is blowing  
how did you begin your life?  
I found it hard to survive  
off any dream - come sail  
with me

From the mountains to the stars  
from the arrows to the cars  
in just a minute I can see  
sixty seconds memory  
from the buildings to the ground  
from the ashes to the sound  
of the daydreams liberty  
an old mans laughing fantasy

is this a memory to escape  
is this the final word to say  
more than a feeling to drag along  
or are the emotions ever wrong

Celebration of crime  
it's not the only way  
your wasting time  
of your life  
celebration of crime  
it's just one way to  
find the symbols of time

Over the buildings  
to the memories  
into the secrets  
know your enemies  
human faults until  
the end of time  
history made all mankind cold  
the same utopics from the old  
solutions taught by people bold  
- before - obey

Over the bodies to the face  
into the future another case  
incorrect identity  
war of words a cosmic sea  
from the daily food -so fat  
smoking hash - no cigarette  
corruption in a world so blind  
hypnotize this puppet mind
