

# Through the Lies

Ivanhoe

Time to leave me father  
time to say the big - goodbye  
I came out of silence  
I came out of a desert storm  
to find another reason  
to find the only way to go  
it's like a new beginning  
another time, another lie  
you can hear me, you can see me  
so please, open up your mind  
- all solutions passing by

Why should I go on I'm thinking  
when will the sun - shine again  
these are the memories of a (man)  
time, let me be another man

Can you hear me  
can you see me  
Do you really know the game  
all the answers  
all the questions  
all the dreams I'm fighting for

Open your eyes  
open (up) your mind  
come - hear the sirens now!  
come read my lips  
come taste the truth  
let yourself come true
