

## Wide Open

Ivanhoe

I walked through the shadows  
all these years  
our eyes were all so blind  
all the secrets, all the memories  
forgotten by an ignorant mind  
open up your closed out mind  
color all your dreams  
turn the clock it's not too late  
new horizons, change your fate

oh - wasted faith,  
the nameless children  
of the holy ground  
God have mercy, heal the blind  
'cause out of sight is not out  
of mind

Doors are open wide  
a glow in sight  
it only takes a minutes to strike  
oh, hope is like a candlelight

In a world of many religions  
who's the judge to make decisions  
I don't know

Law and suicide, moms and kids  
classified racistic pigs  
I don't know

Open window of the world  
problem child - your money hurts  
you make me laugh and smile  
you got me paid for violence

Control your eyes - faith reaction  
with many sides of non perfection  
you live your life in wonder  
let the others hear the thunder

Oh, can I believe what's wrong  
and right  
another day, another night  
you found yourself, the doors  
open wide
