

My Dearest Love

Ivory Night

1.

Hey, little girl, what have you done to me?
With you I can fly as everybody can see
It took us a while to find our way
Now I can dream my life away

B.

Within all my hope I would never have known
How deeply we'd love and how far we would go

R.

My dearest love you are called in my heart
My dearest love I wrote on your birthday card
Don't leave me alone until I die
I live for the shine inside your eyes

2.

We have been friends sharing laughter and tears
We discovered love while talking for hours and years
Good things take time, all distance is near
You are the key to lock up my fear

B.

We'll sum up each other to an endless smile
Truth, trust, honesty, don't you think we have style!

R.

My dearest love...
