1.

Salvation is an honest man
Eyes of purest snow
Always comprehensive
Never need to make a row
A different song
Sung about my pride
Improvement is the reason why
I stand alone at Night

2.

Salvation is an honest man His march is slow and long Walking on his bare feet He always finds his home

It's the fear we hide
And loneliness won't lie

Salvation is an honest man Salvation's tears will feed the sun Inside us in the silence Salvation is an honest man

3.

Salvation is a friend of mine
We haven't met a while
But I have seen before my eyes
His sophisticated smile
This is my suffering
A song about my pride
Longing is my agony
I freeze alone inside my might

It's the fear we hide
And loneliness won't lie

Salvation is an honest man Salvation's tears will feed the sun Inside us in the silence Salvation is an honest man

It's the fear we hide And loneliness won't lie As silence fills my eyes Salvation, my guide

Salvation is an honest man Salvation's tears will feed the sun Inside us in the silence Salvation is an honest man
