

## The End

Ivory Night

Lost in a dream - our time will come  
Lost in a dream - time to run away  
Lost in a dream - behind the shadows  
We are lost in a dream

Where are the children  
of the revolution  
With flowers in their hair?  
They're at the top of their institutions  
And money doesn't care

Where has the green gone?  
Where are the leaves?  
All men of power  
Are hiding like thieves  
And I...

Feel so alive, all the time  
A journey till the end is coming over me  
To find the secret lights come alive  
When time is running out who's left behind?

Is this the road to our sanity?  
Is this the road we have chosen?  
This is the age of luxury  
Alive, fresh and frozen

Lost in a dream - our time will come  
Lost in a dream - time to run away  
Lost in a dream - behind the shadows we are los

I feel so alive, all the time...  
The secret lights  
Come alive [come alive]  
When time is running out who's left behind?
