

## Instincts

Ivoryline

You'll show me love, no matter what I do.  
You'll show me love, even when my back turns on you.  
And I will go about my friends  
Like I know just what to do,  
But I really need your hand  
To pull me through.

Let it up, let it up,  
Let it out on.

Instincts, can not keep me from falling  
I've learned that by now.  
Instincts, can not keep me from falling  
I've learned that by now

You're start is love, and give us the choice  
On who we become, and if I listen for your voice tonight,  
And the quicker that we see we can make ourselves  
Holy we'll know we can do this on our

Let it up, let it up,  
Let it out on.

Instincts, can not keep me from falling  
I've learned that by now.  
Instincts, can not keep me from falling  
I've learned that by now.

Now, now!

Is it deep in our souls really could take us home  
To one place where we can find rest,  
Don't look left, anekatips don't stray right,  
Narrow is the gate that leads to life.

Instincts, can not keep me from falling  
I've learned that by now.

Instincts, can not keep me from falling  
I've learned that by now.  
Instincts, can not keep me from falling  
I've learned that by now.

Let it up, let it up,  
Let it out on.
