

The Last Words

Ivoryline

Are we, are we just selfish?
Wanting to keep you where we are
Just where you left us
You're seeing all the things I'd die to see
Everybody finds it necessary
To say how much you loved me
As if I didn't know so deeply

Can you see evidence of perfection
Look past the circumstance and find some meaning, find some meaning

If only this song could capture
The peace you are seeing
If only this song could capture
The hope we are seeking
Everybody finds it necessary
To say how much you loved me
As if I didn't know so deeply

Can you see evidence of perfection
Look past the circumstance and find some meaning, find some meaning

Just love me, and let me sleep
