

Be my woman

Iwan Rheon

Be my woman
believe me
forget if you told me
something wrong
come to me lady
I hear the voices that
feeling deep in your soul

You've told me a story
that you r loosing left
And you r fond for seeing me

But you r arousing
Spy inside me
There's something to tell I need

Be my woman
believe me
forget if you told me
something wrong
come to me lady
I hear the voices that
feeling deep in your soul

Have I told ya
How much I loved you
Ill love you always

How to see you
that why im beggin you
Steal my feaver my cries

Be my woman
believe me
forget if you told me
something wrong
come to me lady
I hear the voices that
feeling deep in your soul

In my dreams
You came my way
Be my wings, be my burning flame
Be my sense,
my tears,
my breath,
my everything

Be my woman
believe me
forget if you told me
something wrong
come to me lady
I hear the voices that
feeling deep in your soul

Be my woman

don't leave me
forget if you told me
something wrong
come to me lady
I hear the voices that
feeling deep in your soul
