She softly wondered where she'd been If someone whispered in her ear You are, you are, you are in me Don't go away Our time is near Not crystal cut outs on a string You are, you are, you are in me Decisions shape Who she might be A heartfelt promise then she'll hear You are, you are, you are in me Don't go away Our time is near Not crystal cut outs on a string You are, you are, you are in me How far are we falling Now distance took my love away I long through song to hear her sing You are, you are, you are in me Don't go away Our time is near No heart felt promises to fear

You are, you are, you are in me
