

# Angel

J Boog

Uh, uh, yeah

Baby I'm your angel, when you make sweet love to me  
Your knight in shining armor, loving you tenderly

Baby I'm you're hero, I save you from bad storms  
Loving me so faithful, your love has kept me warm  
Never let them hurt, you, they have no right to keep you down  
Keep your head up to the sky girl, cause love has come around  
I'm an angel of love, I'm an angel of love, for you

I'll be your hot comfy, to keep you warm and nice  
You'll be my beautiful baby, no need to fuss and fight  
Friends try to separate us, you'll be here by my side  
My love for you, I can't hide no no,  
Your will inside to survive,  
Baby I'm your angel, when you make sweet love to me  
Your knight in shining armor, loving you tenderly

Baby I'm you're hero, I save you from bad storms  
Loving me so faithful, your love has kept me warm  
Never let them hurt, you, they have no right to keep you down  
Keep your head up to the sky girl, cause love has come around  
I'm an angel of love, I'm an angel of love, for you

In my life you've been a blessing, like treasures to behold  
Love is such a mystery, the future, now unfolds  
In your eyes I see the sign, two hearts are intertwined.  
You've found the best love you could find.  
A love like yours and mine, yeah  
You found out there's love you can find  
Baby I'm your angel, when you make sweet love to me  
Your knight in shining armor, loving you tenderly

Baby I'm you're hero, I save you from bad storms  
Loving you so faithful, your love has kept me more  
Never let them hurt, you, they have no right to keep you down  
Keep your head up to the sky girl, cause love has come around  
I'm an angel of love, I'm an angel of love, for you.
