

## Come And Get It

J Boog

Oooh lady how I love the way  
Your voice when you speak to me  
Your sweat when you leak for me  
Said baby my name is boog from the south pack way  
Every inch of your body  
I wanna yell out oooh babe  
So won't you say yes laaaady  
Come chill with me

If you want some action  
Come and get it  
Some real satisfactions  
Come and get it  
Long lasting all night  
Come and get it  
Girl I know what you like  
Come and get it

Ooooooh baby your body when you move for me your eyes lookin in to me  
Your touch all over my body  
Layin next to you makes me wanna say ooooooh babe oh baby  
Lying next to you makes me wanna say oooh  
Squeezing and rubbin on you all night long  
Takin advantage of your every way  
We make sweet lovin to our favorite song  
And you can have it your way baby

I know you like it when I pull you hair  
Run my finger down your spine while your back is bent  
Make your body shiver baby  
Make your toes curl  
I would get down on the crazy oh yeah  
My body's yerning for you  
Your body's yerning for me  
Get by the wall we proceed  
Let me full fill all your needs  
So after when we are done  
We both can lay here with ease yess now repeat

Let me lick you up and down move your body round  
Push my love aside and make you say dem sexy sounds  
Hit the high key girl you know what I'm talking bout  
Please stop fronting now just pull dem satins down

[Chorus: until fade]
