

Suffocate

J. Holiday

Now even though I try to play it off
I'm thinking about you all day long
And I can't wait for shorty to come through
From your lips and back up to your eyes
My hands on your hips when we grind
I'm fantasizing bout what I'm gonna do to you
Got me fiening for her love can't lie
Man you should see how she got me
Spending all this time with her
And I couldn't leave her if I wanted to
Her love turns men into fools
Tell me what a man is to do

Cause I can't breathe when you talk to me
I can't breathe when you're touching me
I suffocate when you're away from me
So much love you take from me
I'm going outta my mind
I can't breathe when you talk to me
I can't breathe when you're touching me
I suffocate when you're away from me
So much love you take from me
I'm going outta my mind

Whenever we up in this bed
And my fingers fall in your hair
I wonder if you feel me watching you
Cause I can't go a night without your loving
Got me looking at this phone
Every time it rings I hope it's you girl
You got my bracing for your love
And I fallen for you I can't lie
I just wanna be with you
Yes she got me there I said
And somebody call the paramedics
Tell em to hurry up and come through

Cause I can't breathe when you talk to me (can't breathe)
I can't breathe when you're touching me (when you touch me)
I suffocate when you're away from me
So much love you take from me
I'm going outta my mind (I'm going outta my mind)
I can't breathe when you talk to me
I can't breathe when you're touching me
I suffocate when you're away from me
So much love you take from me
I'm going outta my mind

Don't ever leave me girl
I need you inside my world
I can't go a day without you
And see nobody else will ever do
I'll never feel like I feel with you

Cause I can't breathe when you talk to me
I can't breathe when you're touching me (when you touch me)
I suffocate when you're away from me

So much love you take from me
I'm going outta my mind (I'm going outta my mind)
I can't breathe when you talk to me (oh when you talk to me)
I can't breathe when you're touching me (I can't breathe when you touching me)
I suffocate when you're away from me
So much love you take from me
I'm going outta my mind (I'm going outta my mind)

Oh no no I can't breathe
Oh no no I can't breathe (I can't breathe)
Oh no no I can't breathe oh no
