

# Without You

J. Holiday

It's crazy how I'm seein u  
Cuz I just told your lil cousin the other day  
I need to speak to you  
Girl how u doin, how u been  
Lets get all of that all the way  
I got permission to say  
I heard u had a baby on me  
Is that the truth  
Or is the block just hatin on me  
And I ain't trippin if you got ur self a man  
Girl cuz I can say that u didn't have a chance

Feelin me apologize  
Everything I did that made u cry  
I know u dont wanna hear this song  
But I promise I wont take to long  
I needed you to hear the rest  
At least I got it off my chest  
Don't walk away  
Cuz if u do you'll miss the best part  
Of what I gotta say

Baby I want, to go back in time  
To the first time, get it right  
I'm sorry  
And my life is nothing without you, baby  
My life is nothing without you  
My life is nothing without you

I know that it was hard for you  
And I know that you were hungry for love  
Girl and I was starving you  
And it was started by a myth  
Now I gotta get you back for everything you did  
Girl I would have never packed up the house  
If you ain't feel the need to go sneakin around  
And I'm sure you wouldn't have checked my messages  
Cuz I would've been punished bout where I been

Feelin me apologize  
Everything I did that made u cry  
I know u don't wanna hear this song  
But I promise I wont take to long  
I needed you hear the rest  
At least I got it off my chest  
Don't walk away  
Cuz if u do you'll miss the best part  
Of what I gotta say

Baby I want, to go back in time  
The to first time, get it right  
I'm sorry  
And my life is nothing without you, baby  
My life is nothing without you  
My life is nothing without you

Baby I want, to go back in time

To the first time, get it right  
To the first time, and get it right  
Baby I want, to go back in time  
To the first time, get it right  
Cuz I'm sorry  
And my life is nothing without you  
Nothing without you baby  
Nothing without you baby  
Nothing without you baby
