

# Cajun Moon

J. J. Cale

1. Cajun moon, where does your power lie?  
As you move across the southern sky.  
You took my baby way too soon.  
What have you done, Cajun moon?
2. Someday baby, when you want your man  
And find him gone, just like the wind  
Don't trouble your mind, whatever you do,  
'Cause Cajun moon took him from you.
3. = 1.
4. When daylight fades, and night comes on,  
You can hear the silence of this song,  
Don't trouble your mind, whatever you do,  
'Cause he got me like he got you.
5. = 1. (2x)
