

## City Girls

J. J. Cale

City girls they're all right  
They just want you for the night  
But when the morning comes at dawn  
City girls they all gone  
You know the daylight can be sad  
When you feel that you've been had  
Only night time brings the price  
City girl she thinks it's right

What's a poor boy going to do  
If he wants a girl like you  
Can't afford no diamond rings  
Or all those other fancy things  
Only one thing I can give  
A song down where you live  
I'll sing to you hear the sound  
City girl please stay around
