

# Perfect Woman

J. J. Cale

Got me a woman, boy she's fine  
Love me in the morning, love me at night  
One thing about her I think is cool  
A perfect woman, she's got no rules  
Soft to the touch, silky smooth  
She got everything a man could use

Ain't no doubt about it, when we make love  
She's good down under, she's good up above  
She's a perfect woman, she's fine  
I want to make love to her all the time  
Perfect woman, when we make love  
She's good down under, she's good up above

She's a-ready, she's a-willin'  
She's got that thing  
Ordinary man  
Feel like a king  
She's got her hand on love for sure  
Forget your troubles, boy  
She's got the cure  
She's a perfect woman  
She's fine  
I want to make love to her all the time  
Perfect woman, when we make love  
She's good down under, she's good up above

She's a perfect woman  
When we make love  
She's good down under, she's good up above
