

Make It Right

J Mascis

I don't know when
I don't know how you know
All I know is I feel it
I can't make it alone
I can't face on my own
I need more than to be here

Make it right
Make it right
Make it right

Smile won't let me astray
Silence held me the way
Now I'm lost and I'm reelin'
I know more than I should
Never did need no clue
All I know is I feel it

Make things right
Make things right tonight
Make it right
