

## Several Shades Of Why

J Mascis

There's no peace, little comfort, no one's shoulder  
Not a wrinklins of a time that made you colder  
I'm not saying much I tried hard that's all I do  
Tried and waited then got tired, that's about it  
With my time  
With my time

Got to wait this time  
Why should I have time to answer?  
Several shades of why  
I can't go back, it's faster  
Don't expect it 'cause the ending's a disaster  
Nothing, nothing, nothing man, a little laughter  
With my time  
With my time

Gone at it the wrong way  
Thought I'd find out but I missed it  
If I make it through I'll run and stop the twistin'  
Way I steered us off'll lose it just to give in  
Hell may not dwell on the dead  
How about the living?  
With my time  
With my time
