

What Happened

J Mascis

She was always far away
Got this dream it hurts today
Tried to keep 'em all in place
Get so close from breaking down
This whole town
I waited won't you come around

What happened to mama
What happened to mama
The world move away
What happened to mama
What happened to mama
The world move away

Have you taken a new form
Are you the brother I don't know
Deep bright eyes what do they show
I just feel the strongest pull
Does it make sense, is it true
Left not knowing what to do

What happened to mama
What happened to mama
The world move away
What happened to mama
What happened to mama
The world move away

Got so high
Burn my eyes
On my trial
Is it time

I get anxious
I go nuts
Plenty of times when it's too much
Leaning in to get a touch
We don't wanna set it straight
No conclusions it's too late
It's not the same
What says fake

What happened to mama
What happened to mama
The world move away
What happened to mama
What happened to mama
The world move away

Take my hand
Understand
Hold my hand
It's my man
It's my man
It's my man
