

# Forget You

J Rice

I turn off the radio change all my ringtones  
Cuz I don't wanna hear it no  
I sold all my jewelery that you ever got for me  
Cuz it hurts to see  
I just can't believe that you say its over its over  
Maybe you never felt what I still feel now

I cant forget about you know I can't live without  
I tried but I just cant move on  
Its only a memory its taking its toll on me  
No matter what I do I know  
I'll never forget (I'll never forget)  
I'll never forget (I'll never forget)  
I'll never forget (I'll never forget)  
I'll never forget (I'll never forget)  
I'll never forget, I'll never forget

I'm taking the long way avoiding the freeways  
Trying hard to forget your face  
I thought I'd be closer to start over  
But its not looking that way  
I just can't believe that you say its over its over  
Maybe you never felt what I still feel now

I cant forget about you know I can't live without  
I tried and I just cant move on  
Its only a memory its taking its toll on me  
No matter what I do I know  
I'll never forget (I'll never forget)  
I'll never forget (I'll never forget)  
I'll never forget (I'll never forget)  
I'll never forget (I'll never forget)  
I'll never forget, I'll never forget (yeahh) (ohh)  
And I just cant believe you can say that  
Its over its over...

I cant forget about you know I can't live without  
I tried and I just cant move on  
Its only a memory its taking its toll on me  
No matter what I do I know  
I'll never forget (I'll never forget)  
I'll never forget (I'll never forget)  
I'll never forget (I'll never forget)  
I'll never forget (I'll never forget)  
I'll never forget, I'll never forget  
I'll never forget I'll never forget...
