

# Stay With You

J Rice

What if it looked like I would fail  
And you would not get your fairy-tale  
And everything you dreamed of was slowly washing away, washing away  
Or what if I said I'm about to blow  
Never in my life have I been this close  
Would you wait patiently or would you just walk away  
Cos I try so hard  
And I've come so far  
But sometimes I just can't keep holding on  
And I'm losing grip

All I wanna know is are you gonna stay (gonna stay)  
When everybody else has given up  
When they think that I've run outta luck (yeah)  
When my whole world's crashing down on me (down on me)  
Are you gonna stay, are you gonna stay

I never went down without a fight  
It's always been darkest before the light  
When it gets cold I know you'll keep me warm  
Cos we try so hard  
And we've come so far  
But sometimes I just can't keep holding on  
I'm losing grip

All I wanna know is are you gonna stay (gonna stay)  
When everybody else has given up  
When they think that I've run outta luck (yeah)  
When my whole world's crashing down on me (down on me)  
Are you gonna stay, are you gonna stay

I really need someone  
Who I can lean on  
I really need someone  
Who makes me strong  
Been looking so hard my eyes both hurt  
I've gone so far and here you were all along

And all I wanna know is are you gonna stay (gonna stay)  
When everybody else has given up  
When they think that I've run outta luck  
When my whole world's crashing down on me (down on me)  
Are you gonna stay, are you gonna stay

All I wanna know is are you gonna stay (gonna stay)  
When everybody else has given up  
When they think that I've run outta luck (yeah)  
When my whole world's crashing down on me (down on me)  
Are you gonna stay, are you gonna stay

And when my whole world's crashing down on me (down on me)  
Are you gonna stay, are you gonna stay
