Yea Rule Are you a figment of my imagination? Or am I one of yours? Believe me baby, an hear me, fear me, feel me That's why they all want to kill me dead True in the head but nigga not As soon as I get the drop I pull up the pop of the test It's outta the prairie Bitches style juice running through my head How many want to die nigga? My concept It's irrational My thinking now I'm erratic like Mike W's whose falling down I'm losin' sight now I can hardly see And smoking all this fucking weed I can barely breathe I'm like tell a bitch bleed Squeeze on D Run up in the deli Wrung up on D

Are ya watching me?
They be watching, niggas they be watching, keep watching
Keep watching me
Now don't look down
Are ya watching me?
They be watching, Bitches they be watching, keep watching
Keep watching me
Now don't look down
Whose watching me?

C'mon watch as I creep through your block In the hard top drop With my bead on knock Cause cops I ain't standing And gangstas know Catching before hanging And my dogs keep banging Cause ain't shit changing And hustlers ya'll keep slanging We stuck in the game Wit not a lot to gain But everything to lose But we soldiers that front-line In days to rule We do homicide drive-by's Cock and spray If you the last man standing You about to lay 6 feet underground Watch me now Stop me how? Y'all niggas trying to cop my style I spit nothing but hot ones And pop guns

Make it hard for niggas to function
Who want some of the Rule baby? (None of y'all)
I'm legally considered crazy
But if that's the way that God made me
This world can't change me
And that's the way it'll be
Caught in the dark
Until the light shines on me
I'm a slave to this game
But I'm break free
So keep watchin' me
