

The Other Kind

Jace Everett

Well I've heard you say that
You've been here before
You can't take those chances anymore
So you keep your guard up
Don't wanna let me in
Cause you don't want your heart
To break that way again

Yea you've had the kinda lovers that'll let you down
Promise you forever and just walk out
The kind that'll leave ya lonely
Only holdin' on to goodbye
But your gonna find
I'm the other kind

Darlin' you might doubt me
But baby please don't run
Cause I would never do
The things they've done
I might not be perfect
I'll make my mistakes
One thing certain,
I won't just turn and walk away

Yea you've had the kinda lovers that'll let you down
Promise you forever and just walk out
The kind that'll leave ya lonely
Only holdin' on to goodbye
Your gonna find
I'm the other kind

Yea cause you've had the kinda lovers that'll let you down
Promise you forever and just walk out
The kind that'll leave ya lonely
Only holdin' on to goodbye
But your gonna find
That I'm the other kind

Yea your gonna find
I'm the other kind
I'm the other kind
