

Your man

Jace Everett

Baby lock the door and turn the lights down low
Put some music on thats soft and slow
darling we aint got no place to go
i hope you understand
ive been thinkin bout this all day long
never had a feelin quite this strong
i cant believe how much iyou turns me on
just to be your man
theres no hurry dont you worry
we can take our time
come a little closer
lets go over what i've got in mind
baby lock the door and turn the lights down low
put some music on thats soft and slow
darling we aint got no place to go
i hope you understand
ive been thinkin bout this all day long
never had a feelin quite this strong
i cant believe how much you turns me on
just to be your man
that is nobody ever loved nobody
the way that i love you
were alone now
you dont know how long ive wanted to
lock the door and turn the lights down low
put some music on thats soft and slow
darling we aint got no place to go
i hope you understand
ive been thinkin bout this all day long
never had a feelin quite that strong
i cant believe how much you turns me on
just to be your man
i cant believe how much you turns me on
just to be your man
