

## Fall for You

Jaci Velasquez

I could never leave you alone  
How could you expect me to  
You need me more than you know

Hand me all your pain  
And I will love you anyway  
I will, I will, I will

Even 'till the end of time  
Even if two worlds collide  
I will never let you fall... I'll fall for you

Impossible to fall from grace  
Even if you were to think  
That you could ever lose your faith

Give and take it all away  
And I will love you everyday  
I will, I will, I will

Shout or scream, do anything  
If you gotta let it out  
Run or hide, I'm on your side  
I'll never let you down
