

He's My Savior

Jaci Velasquez

He's the sunlight in my sky, He's the moon that shines at night
He's the rainbow over me, the river running to the sea
The music and the poetry, the beauty that my eyes can see
Still His love means so much more to me

He's my savior and everything within me
Wants to tell the world it's true
He's my savior if only you could open up your heart
You would know Him, too

He's the fire in my soul, He melts my heart
and makes me whole
He's the air upon my breath
the gentle touch of holiness
Just for me He gave His life and
in that moment paid the price
For all I've ever done and that is why

He's my savior and everything within me
Wants to tell the world it's true
He's my savior the moment that you open up your heart
You will know Him, too

I can take you there but I can't cross the line
It's my deepest prayer that this will be your time

I will vow, yeah
I will vow, yeah

Just for me He gave His life and in the moment paid the price
For all I've ever done and that is why

He's my savior and everything within me
Wants to tell the world it's true
He's my savior if only you could open up your heart
You would know Him, too

He's my savior my best friend
He's my savior He's my savior, He saved me
He's my savior and everything within me wants to
Tell the world it's true
He's my savior the moment that you open up your heart
You will know Him, too
